# OUR STORY

## **Okami: What is it?**

Long ago... A legend was born, a being with a dominant force. We keep returning because of the experiences we gained. We are more powerful and hungry as ever. Your doubt is visible to me; let me demonstrate my powerful skills. We train every day and strive for perfection. There are thousands of villains in existence today, but we are the ones who carry the legacy. The land belongs to us, we must claim what is rightfully ours. I am what you call "Okami!.

## **Our purpose:**

Bringing back what was once Utopia for the typical villager is our aim with this. Crooks and unfaithful jokers are rife in our country. It's time to display our teeth once more since you've already seen what we're capable of in the past. Come along with us as we demonstrate our domination in the land.

## **Our journey:**

Building our kingdom is the first step in our quest. The most deserving soldiers who assist us in realizing our vision are given a crucial role. We construct every day, forming an unbreakable force. It's going to be great in the end.

## **Our foe:**

There are others who share our abilities. We have come to retrieve our property. We will emerge as monarchs of all lands with heart and courage. Join us to demonstrate our frailty and that we are not in it for the money. Okami is in charge. Our adversaries want to stop us, but we are eager to be the target of psychological warfare. We must convert the opposing side if we want to win.

## **2% Auto LP:**

The 2% is added to LP to increase the value and stability of the Okami token. As a result, the price volatility will decrease as buys and sell occur.

## **Token Supply:**

The total supply of Okami tokens is 100 million. There is a 7% tax on every buy and sell. With the supply decreasing this will add more value to the token.

## **Security:**

At Okami, investor security is a top priority so that each member of our community is secure. We have implemented numerous measures to protect our community in the crypto space. First, the contract has undergone an external audit and the LP will be fully locked.

## **Buy & Sell taxes are 7%:**

5% Marketing  
2% LP

## **First 48 hrs sell tax at 14%:**

10% Marketing  
4% LP
